Pam,

Quickly looking at our tracking system, I am unfortunately not seeing an updated human health report. Rework for cases with amended information is taking longer than expected. I don't have a reliable estimate of when the human health report will be done. I'll see if I can find out anything more concrete.

Hi Tyler,
I am interested in the PMN P-20-0144. This has been stuck in the Human Health Group and I would like to know when it can move on.
Thank you,
Pam

Pam,

I have been out of the office and Jeff is currently without a computer. What is the PMN in question? I can see if there has been any movement.

Best,

Tyler
